APPLICATION

RECORDING ACTIVITIES

You can record your "RUN/WALK" and "BIKE" activities with your wearable. The tracking of the Challenge must be done via the B2Mission app.

1. Start your activity on your watch

- The possible types of activities are: Running (outdoors), Cycling (outdoors)
 - Only for Garmin: Treadmill, Indoor cycling
As the other providers only label the activities in the data submission as running, cycling and "Other", we cannot differentiate the permitted activities from the non-permitted activities in "Other".
- Step counts do not count towards activities in B2Mission and so won't be synced.

2. Once you have finished the activity, stop the recording

3. Your activity is automatically synced with the B2Mission app and posted in the feed

- If you do not want the activity to be displayed in the feed, you can delete it using the 3 dots in the top right-hand corner.
- This way you can also edit your post and add photos.
